

# Teddy in the gardens.

Registered on 08.12.2017 - Closed

## About the project

This project will support the first year of our Erasmus+ key action 2 'Let us Grow our own Green Future.'

The two schools involved in this project will use this twinspace to collaborate, exchange good practices and plan activities on the theme of outdoor learning, using the school gardens to develop the key skills in numeracy, science and literacy of our pupils as well as their basic competences.

### AIMS

With the garden, we aim to develop our pupils practical work, planning ahead, collaborating with partner schools, comparing and reacting to different climate and ecosystems, sharing recipes, ideas, concepts and experiences, looking at the local and European environment as well the history and backgrounds of each school. Using eTwinning will enhance key skills, communication and collaboration work and will record planning and evidence for our current Erasmus + KEY Action 2 partnership for schools.

### WORK PROCESS

January: the twinspace will be introduced and pupils will take part in ice breaking activities in order to get to know each other, to facilitate their meeting in June 2018, taking place at Bredon Hill Academy. Teddy will be travelling to and from both schools' gardens, having selfies with pupils in Austria and England.

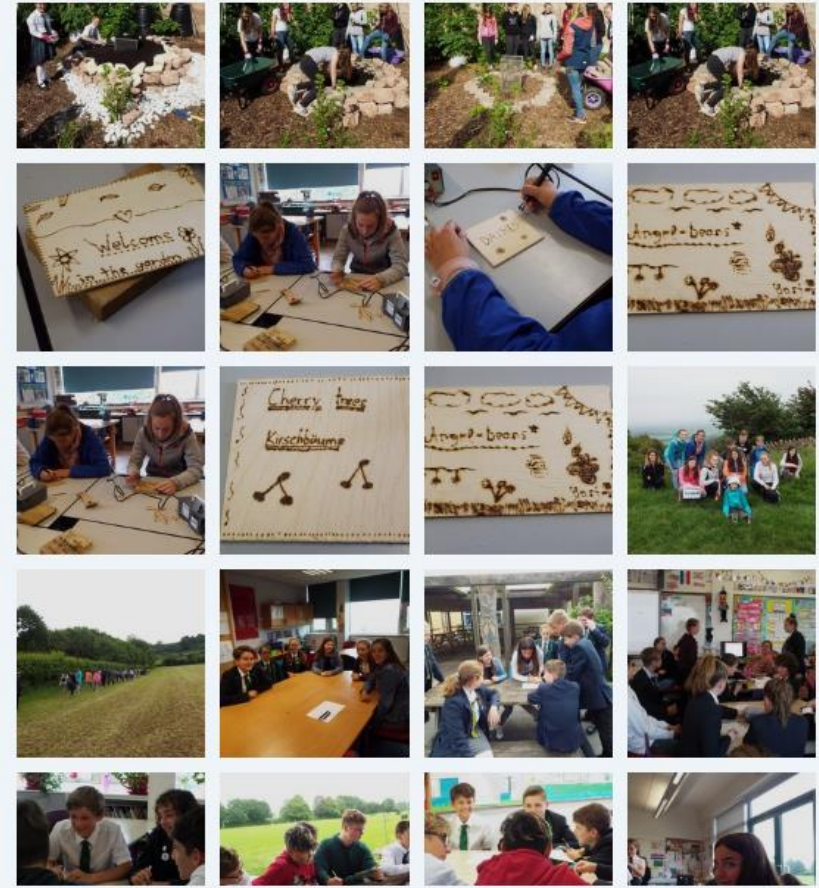

February and March: focus will be on STEM, teachers and pupils looking at taking the learning outside the classroom, sharing ideas and experiences, as well as evaluating the impact of new practices: to promote interest in new careers' choices.

April - May: Focus will be on planning the exchange of pupils, using the forum facility and the video conference to develop relationships between pupils in the two countries.

June: we will be using the platform to evidence the visit, uploading photos and results of shared work in the gardens.

Both schools offer enrichment where the eTwinning activities will take place. This happens on a regular basis of 2 hours very 2 weeks.
