

Apple day

Friday 21st October

Take part in a celebration and demonstration of the abundant diversity of fruit available locally.

- Bring an apple to school.
- Place it on our display table.
- Take an apple home at the end of the day.

If you know the name or variety you could add a label and see if it features on our list on the eco notice board.

If you have a photo of the tree it grew on you can add that to our display.

How many varieties, or types of fruit can we find?
